Summary

This is a mount for holding 3/8" and 1/2" PEX plumbing pipes. I mad this mount to hold 8 pipes in parallel. I use these on every joist in my basement to hold up the pipes and keep them inline while looking cool. The nail mounts I purchase from the store keep breaking and don't look as nice. This one is OCD compliant too. :)

I recommend using pan head screws to prevent breaking the block if it gets over tightened.

I have included a gCode file for printing 7 at once on a Prusa MK3.

Added a 2 ,3 & 5 pipe versions.

Print Settings

- Printer brand:
  Prusa
- Printer:
  i3 MK3
- Rafts:
  No
- Supports:
  No
- Resolution:
  0.2mm
- Infill:
  30
- Filament brand:
  ?
- Filament color:
  Black
- Filament material:
  PLA
